PROFESSIONAL EXPERIENCE

Product Engineer | Bluecore

Mar 2024 – Present

- Develop and implement client-side JavaScript integrations for seamless data tracking and event handling.
- Serve as a key technical point of contact, ensuring smooth pre- and post-launch operations for clients.
- Write and maintain integration code tailored to partner-specific needs, improving performance and scalability.

Technical Content Reviewer | Packt

Apr 2024 – Dec 2024

- Review and validate technical content related to JavaScript, frontend development, and modern web technologies.
- Provide feedback on accuracy, best practices, and clarity to improve learning materials.
- Collaborate with authors and editorial teams to enhance content quality.

Frontend Developer | Nagarro

Feb 2022 – Feb 2024

- Built a scalable UI with reusable components, enhancing efficiency in frontend development.
- Developed a global decentralized marketplace and data exchange SaaS platform, accelerating enterprise onboarding.
- Implemented a configuration-driven design approach to facilitate seamless updates and customizations.
- Worked with modern frontend technologies to improve performance, accessibility, and user experience.
